Which room(s) are we designing?

Have a Pinterest board set up, a Houzz Ideabook, look through magazines (House and Home/Elle Décor/Domino/Southern Living)– what styles are you drawn to? Filter and only pin images that make you really, really excited.

Show me colors you love (and colors you don't – just as important)

Mix patterns or keep things simple or monochromatic? Florals, stripes, geometrics?

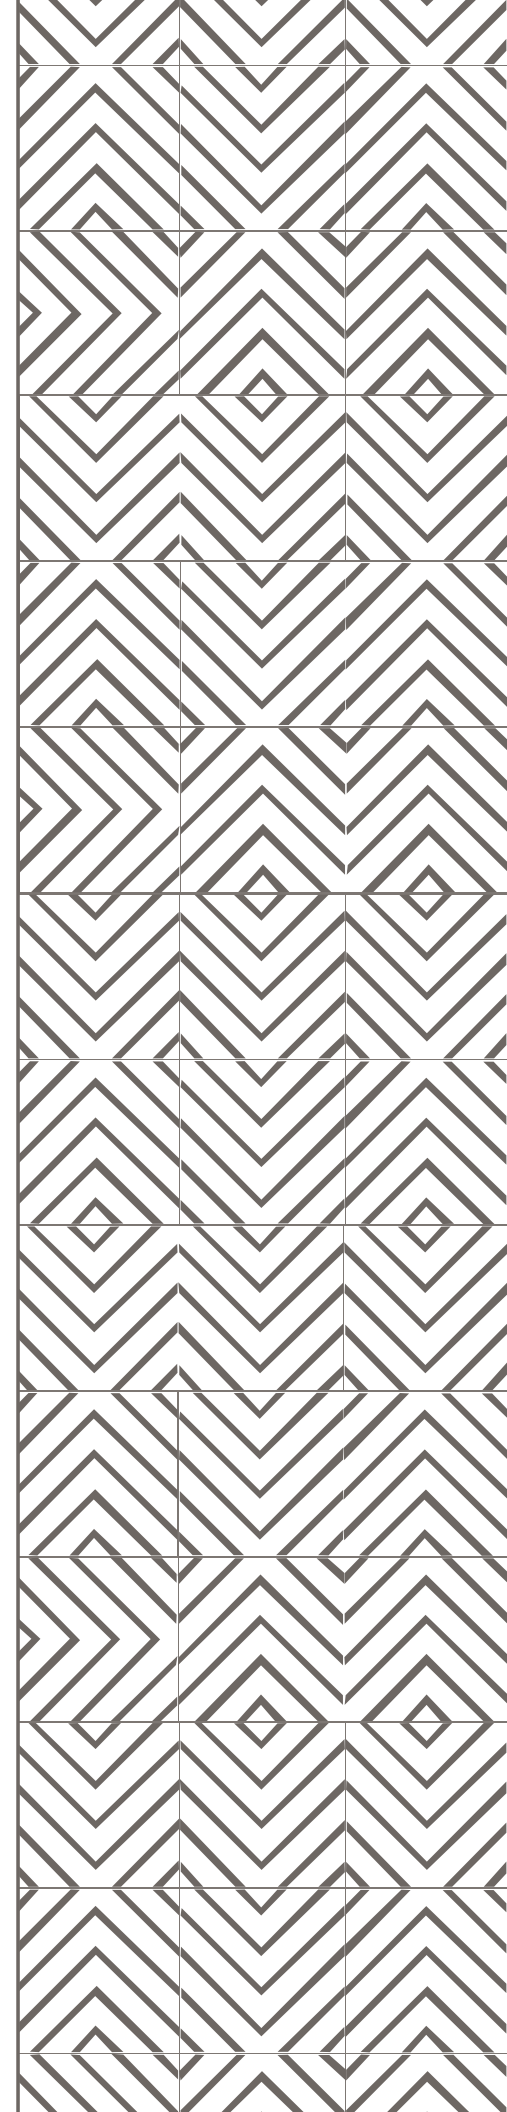

Do you need to sit in furniture pieces before purchasing or are you comfortable with ordering items online?

Which items?

What existing pieces would you like to keep? (Look throughout your home – I can help on the home tour – there may be pieces in other rooms/storage that could work for the room you are redoing)

Do you have any art or accessories you would like in the space?

How would you like the space to function? Kid/pet supporting? How many people should the space accommodate?
